I agree that RAID Moorebank is also acting on my behalf and that of the community

I object to this application and the entire project at this location.

This project will bring pollution and unwanted congestion on suburban roads, wildlife will be destroyed, increased noise pollution, a flourishing community will become a wasteland of containers and trucks. So many more environmentally efficient and prosperous solutions can be found. This intermodal is a waste of time, a white elephant of a scheme. Not on my taxpaying dollars...

I consent to my name being published as an objector.

I have not made any Political donations over \$1000.

leading to health problems – asthma, emphysema, lung cancer.

1. Removal of acres of natural bushland containing threatened species and many large trees including 45 with nesting hollows which are already rare in our area. This will also cause major degradation of the Georges River which is an important amenity for Liverpool and surrounds.

This plan to have an Intermodal Terminal is not a solution, it will cause further traffic problems and cause an environmental impact on an area which has been identified as supporting a unique species of plant, thought to be extinct.

Now that an airport will be established at Badgerys Creek, there needs to be a longer term solution via rail implemented. Trucks need to be reduced on our roads, not increased.

Consideration of people in our community needs to be a priority. Not a short term answer that will only result in further problems, including impacting the health and well being of people in the Moorebank vicinity. _____

Submission Moorebank Container Terminal West SSD5506 MOD

I object to the additional land parcels included in the modification. This requires bushland and riverfront acreage that will impact on the environment. Subject: MOOREBANK PRECINCT WEST [MPW]: RtS Concept Plan Modification - SSD 5506 MOD1

I agree that RAID Moorebank is also acting on my behalf and that of the community

I object to this application and the entire project at this location.

This will have a serious impact on the lives of those in this area and surrounds !

I consent to my name being published as an objector.

I have not made any Political donations over \$1000.

Yours sincerely, Stephen Donaldson Hinchinbrook, New South Wales, 2168, Australia

I agree that RAID Moorebank is also acting on my behalf and that of the community

I object to this application and the entire project at this location. There has been no Community consultation on this project which will severely impact on our health with diesel fumes, noise, light spill, add thousands of extra vehicles to our already gridlocked roads and kill our river. To completely denude an area of this size is obscene and to build it up by 2 metres even more so. The Council vision for this site will provide many thousands of jobs more than this project will provide and they are needed in this area. This project should be closer to the distribution centres as Eastern creek
